MISSION STATEMENT

The guiding purpose of Peters Braille Press Traders is to promote the literacy of people with special needs through braille, magnifications of prints, screen leader, sign language, and to provide access to information that empowers people with disabilities to actively engage in work, family and community affairs

OUR VISION

Strives to be a global leader in producing high quality, affordable braille materials and developing innovative technologies defining excellence and building unmatched customer loyalty while offering complete solutions to client's needs.

CORE VALUES

Integrity: Honour all commitments to our customers, employees and shareholders while conducting business with unwavering high standards of honesty, trust, professionalism and ethical behaviour. **Quality:** Put the interests of our customers first and be dedicated to providing an individualized business experience that assures customer satisfaction and earns their unwavering loyalty.

Teamwork: Work as one cohesive team who continually raise the bar, provide direction, remove barriers and empower people to successfully achieve goals. We are dedicated to maintain a caring and supportive work environment that fosters a sharing of ideas, skills and resources.

Growth and Profitability: dedicated to continuous innovation and pursuit of new ideas and opportunities to accelerate profitable growth. We deliver value in all we do to assure consistently high returns to our shareholders, recognize and reward excellent performance, which drives superior results.

WHAT WE DO

Braille Transcription, Printing & Embossing Services

Whether you need a one-time braille transcription or regular monthly customer communications, Peters Braille Press is here to serve you. Our braille transcription process meets or exceeds the standards set forth by the Braille Authority of North America (BANA), Unified English Braille (UEB) and Swahili braille grade one/two. With over 30 high-speed braille embossers, 25 high-volume printers, live readers and Text-to-Speech (TTS), in-house programmers and in-house four Compliance Specialists, we can provide fast and accurate transcriptions of your documents.

Here are some examples of the braille documents we produce:

- Statements
- Agendas
- Invoices
- Healthcare Documents
- Restaurant Menus
- Contracts
- Legal Documents
- Notices and Disclosures
- Fliers and Brochures
- User Guides
- Business cards

We perform all of our braille transcription, printing and embossing on location at Braille Works' facilities. This allows us to guarantee your document's security and ensure all of our final products meet our standards of quality and accuracy.

Braille transcription process

- We receive and review your document.
- Our in-house, professional transcriptionist converts your document to Braille Ready Format (BRF).
- We perform a Quality Assurance check to ensure your document is accurate.
- The document is then produced in-house on one of our high-speed braille embossers.
- We package and ship your braille document to you.
- Braille Works transcribes materials in many languages including Kiswahili, English and French

For questions regarding our process including turnaround time and quality assurance,

Braille Printing and Binding Options

Please Contact +2557 54 551 630 / +255 742 411 338 / +255 757 272 729

Paper: We use 11 ½ x 11 inch 65 lb. white cover stock paper. This “holds” the dots and makes the braille much easier to read. These documents are bound with a plastic GBC comb, Vero, wired or spiral binding and can include protective plastic covers when requested.

Binding: Several methods of binding are available. Your Braille Works rep will review the options with you to determine the best method of binding for your projects.

Accessible Document Remediation Services

We also provide a service for converting documents to a “screen reader friendly” format. This process gives your customers with blindness or low vision an accessible document they can listen to independently using their PC

Our Braille Printing House is capable of producing textbook materials, tactile graphics, periodicals, calendars, menus, business cards, instruction manuals, medical documents, and more. Continue below to learn about our capabilities.

Transcription services

Peters Braille Press Traders experienced braille production team is comfortable turning any print material into an accessible format. Our staff is professionally certified, up-to-date on current braille codes and standards, and are able to produce quality braille materials in a variety of formats. All accessible materials developed by Peters Braille Press Traders are reviewed by braille users to ensure the accuracy and utility of the final product.

From start to finish, all production is done in-house. Our team is well-versed in producing a variety of accessible media.

Already have a transcription, but looking for a certified proofreader to ensure its accuracy? Peters Braille Press Traders can provide stand-alone proofreading services to ensure that your transcriptions are accurate. All our proofreaders have professional certifications in Braille.

Have a braille file that you'd like to emboss and/or bind? Peters Braille Press Traders offers customized printing solutions. Whether it's one copy, or ten thousand copies, we can provide quick turnaround times, and guarantee the quality of the final product.

Proofreading and embossing services

Tactile graphics

Tactile Graphics pictures represent print images as raised lines and surfaces so that they can be read by touch. These graphics or pictures require extensive skill and artistry to create. Peters Braille Press Traders integrated workforce provides end-user feedback to ensure that tactile graphics are produced to a high standard.

Tactile Graphics are created on-site in collaboration with braille reading staff. Our production methods are aligned with Braille Authority of North America (BANA) Guidelines and Standards, and are thoroughly tested for viability by end users. Peters Braille Press Traders Tactile Graphic Specialist has a long experience of working with Tanzania Institute of Education (Press B) supported by an understanding of the latest Unified English Braille (UEB) requirements.
